

Hi all,

I am respectfully asking this of all my friends, family and subscribers. I understand that some of us differ in our beliefs regarding COVID-19. I also understand that some of you will be downloading the COVID-19 APP which promotes "for the greater good, for our safety, for the safety of our loved ones"! If I am one of your "contacts" on your cell phone or one of your Facebook friends, and **YOU** intend on installing the app, "*Healthy Together*" "*AB Trace Together*" or a similar tracing app, please **DELETE ME** from your phone contact list and Facebook friends **PRIOR** to installing the app on your Smartphone!

The app will ask for permission to access your contact list, and **NO ONE** has my consent to use my phone number or any other identifying contact info in connection with these tracking apps which will identify me and locate me without my knowledge or permission. Even Snopes verifies that GPS capabilities are part of these apps and there are several more in development that have raised serious privacy issues.

Thank you for understanding that this is **NOTHING** personal!

To educate yourself simply Google COVID-19 APP.
