

Soros Funds Globalist Alliance of Religions to Usher in New World Order

Religions for Peace Lindau Reception

By Liberty Sentinel Staff | September 6, 2019

Self-proclaimed “god” and atheist George Soros—a crooked billionaire infamous for helping the Nazis steal property from Jews—is funding a coalition of religious leaders to promote the New World Order under the guise of religion.

Dubbed the “[Religions for Peace](#),” the radical group just met in Germany for its 10th conference to sign a declaration demanding that humanity submit to the United Nations and its totalitarian plan for humanity known as “Agenda 2030.”

Incredibly, despite being completely at odds with the Bible, a number of self-proclaimed “Christian” leaders participated in this abomination working to usher in a false world religion, a totalitarian global government, and more. U.S. taxpayers were forced to help fund it through the State Department and the UN.

Liberty Sentinel chief and foreign correspondent for *The New American* magazine Alex Newman wrote an article about this at [TheNewAmerican.com](#) headlined: [Global Alliance of Religions Joins Push for UN Agenda 2030](#)

He also [went on the nationally syndicated Christian radio show Crosstalk with Jim Schneider on VCY America](#) to discuss it. You can listen to the full program here:
