### Educators and elected representatives encouraged to attend

There is a reason our nation has veered so far off course. The government schools are systematically indoctrinating and dumbing down our children, turning them against their parents, their churches, our Constitution, our Founding Fathers and our freedoms. Our Republic will not survive too far into the future if we allow this to continue. Our public schools are transforming American children into social activists, and molding them into United Nations' "global citizens."

The New American author, speaker, and teacher Alex Newman is on a mission to expose this threat to faith, family, and freedom, while also revealing solutions.

### Be a part of the solution! We encourage you to attend his speaking engagement in Kalispell, Montana.

Alex has a B.S. degree in journalism from the University of Florida with an emphasis on economics and international relations, as well as an A.A. degree in foreign languages from Miami-Dade College. He is co-author of the book *Crimes of the Educators*, and currently serves as a foreign correspondent for *The New American* magazine and an Advanced Economics teacher at FreedomProject Academy.
