8)
9)

10 This is to address my son Justin and his behavior. In the start of his overnight stays
11 the foster parents have not sent Justin with any of his medication his hyper activity
12 medication or his sleeping aid. In the time that we have had Justin over the weekends
13 the foster placement has only sent his medications for 3 weekend visits but they only
14 sent enough of his medication for 2 of the 4 days that he spends with us. In the
15 beginning there was a general stiffness to Justin as we have spent time he has
16 explained that he does not get to go out and play he is not allowed to play with the
17 kids in his neighborhood. He explained to me that he does not have time to play with
18 all his chores he has to do. He likes reading his books because he gets in trouble
19 less at the foster placement. I have seen him playing with the kids and his behavior
20 in my observations I understand that Justin's social skills are rough in the sense
21 that he clearly does not have much interaction with peers in a play setting and what
22 experience he does have he has developed a fairly sarcastic demeanor. We have had
23 discussions about how his social skills need work and as things come up we work
24 through them. In the time that we have had I have seen great improvement in his
25 behavior both with the neighborhood kids and his brother and sisters. The CPS case was
26 dropped and is closed we agreed and developed a safety plan with cps seeing as how
27 Jessica smith never tried to develop a safety plan. Justin's truancy from school is
28 not caused by Eric the foster placement has Justin in their custody on the days that
he is reported absent. Justin has told us that the Hobans keep him home from school

1 because he is too tired and or out of control. That is not an excusable reason even by
2 the school's standards. Justin has never been out of control when he is with us and we
3 return him to the foster placement by a reasonable hour well rested, he gets sleep at
4 our house we consulted a pharmacist and were suggested to give Justin melatonin. Even
5 after the Hobans have been ordered to have no contact they are now giving their false
6 slandering reports to Jessica smith and she is delivering the reports to the
7 therapist. This brings me to my next point everyone needs to approach and reinforce
8 with Justin threw this transition positively. Many times Justin has made comments that
9 are questionable to me things like he does not know who to trust or Shanna and I hate
10 each other or the Hobans have told Justin that we are trying to kill him by giving him
11 a natural sleep aid he has been instructed to not wear the clothing we have for him
12 here, that he is not native he is a descendent of European king. When Justin was here
13 last weekend and at a therapy session Justin said that he has made up his mind about
14 where he wants to live, that he is ready to move home with me he said that he was
15 going to tell the judge his decision. Justin has been told by the hobans and Dr.
16 Jensen that Justin is not allowed to discuss any of the therapy or evaluations with
17 anyone but the hobans. Again the order of the hobans to stop swaying the therapist
18 with their false reports is being trampled on and ignored. Why did Justin have to be
19 subjected to another psycho-sexual evaluation with Dr. Jensen he has had all these
20 evaluations done repetitively. All of which was based from unfounded information it
21 started with Marry Hoppa ,Dr. Jensen, now mark gray and more proof of tony fosters
22 involvement. This should be considered abuse to Justin making him undergo all these
23 examinations and investigations. They are setting the stage to say they made
24 reunification efforts but Justin acts out because of his visits. But Justin is only
25 acting out when in the foster parents care; if he is acting out at all. In the report
26 given by mark gray has captioned the fact that tony foster was the direct recipient of
27 the report as shown in the CC field of the email. This is a breach of confidential
28 information why is tony foster getting medical reports of my son. It appears that tony

1 foster is leading the therapist why else would the contact be direct where he should
2 have no involvement in a case that he is not a party too. This is abuse of power.

3 When Justin is in my care he was never out of control or demonstrated any sexualized
4 behavior or anything the fosters are claiming. The court is trying to fallow the
5 recommendations of the therapist when the therapist is working with false information
6 that is provided from the Hobans threw Jessica smith. It seems that the para educator
7 judging from her reports has been given false information also. Justin needs to be
8 protected from this foster placement he is afraid of them and it has been confirmed by
9 this court. Yet you make him stay in a prison setting. ICW never truly tried to
10 reunify they continue let the foster parents manipulate the therapist; ICW reinforces
11 false concerns and continue to ignore the orders of this court and its laws. ICW is
12 stacking the deck by copy and pasting past reports to current reports to make things
13 seem to be the same. When I asked Justin if what Jessica and the gal have said is the
14 correct version of his feelings and what he has said and he told me no. but Jessica
15 and Astrid have twisted what I have said too. When I said that I won't stop Shanna
16 from seeing Justin Astrid said that I won't stop her from seeing Justin because of
17 where I live. It is what this court has done the whole case history twist and
18 convoluted until they achieve what the tribe wants. This whole case only goes to prove
19 the extent the tribe "tony Foster" will go to in an attempt to steal my children. They
20 have slandered my wife Shanna then myself after they can't prove their slander now
21 they turn to slander my son calling him a sexual predator (same as they did to us) to
22 justify why not to return my children. The court has called myself, Shanna, and now my
23 son sexual predators to gain unlawful custody of my daughter. They have destroyed my
24 family so they can steal my daughter and now this court seeks to do the same to my
25 son. Buy not using and or following any law's this court has failed with all do
26 respect this family my family. Please respect our family and return my children. One
27 of the last reports that Jensen gave he tried to explaining that he was only basing
28 his reports from Marry Hoppa's recommendations. Seeing as how Marry Hoppa was removed

1 from this case due to her unethical conduct his opinion is tainted and should not be
2 admitted just the same. It has been outlined already that when they get the report
3 from Jensen they are going to change the court order of visitation accordingly. They
4 have gotten into the habit of copy and paste now they are heading down the same path
5 with my son as they have with my daughter in saying that a sheared custody order might
6 be the best plan for Justin. I will not let this happen my son needs to be removed
7 from this foster placement and returned to me immediately under rcw 13.38.130 and rcw
8 13.38.150 I have never been proven unfit I am able to provide for him he is not in any
9 harm and I have removed my consent to foster placement many times in this m.i.n.o.c
10 case. Where is Rachel Hardies full report I was never given her report I want to know
11 what else she wrote. I am sure that there was some positive things mentioned and that
12 is why I was not given a copy. The only good reports about Justin in the court records
13 is during the time he was in my care his IEP and CPT reports were improving so greatly
14 the staff were amazed. Then the court took him from my care. Since then the tribe and
15 foster placement have only ever reported negatively about Justin.

16
17 The contact that Shanna has had with Justin has been short and has never put Justin in
18 harms way I feel to cut off this contact would only cause him pain Justin has said
19 many times that he liked seeing his mom he was glad that he got to spend some time
20 with her. It was only on Shanna's birthday 2-19-16 that when Shanna came by to say hi
21 and see Justin that he greeted her with your not allowed to be here the Hobans said
22 that your not supposed to be here that your a danger to me. When I tried to speak with
23 Justin about what he said Justin went on further to say that everyone got a copy of
24 the court order that Shanna, Sam, and Clark are not to see Justin. There is no order
25 against Sam and Clark his grandparents calling for no contact. The foster placement of
26 Sammy has been letting Shanna see Sammy over the past 5 years why should Shanna not
27 have contact with Justin. When I brought this to the attention of the GAL she
28 explained that it is ok because the fosters are the guardian of Sammy. I pointed out

1 how do the guardians for the past year have more authority over my children then
2 myself the biological father of my children? Jessica smith goes on to say that that
3 she can not get a hold of Shanna but Jessica smith and Shanna are friends on Facebook
4 Jessica has not tried to contact Shanna. Shanna just saw Jessica 2 weeks ago at subway
5 but she never said that she was trying to get a hold of her. I myself have told ICW
6 and the GAL that Shanna lives 2 doors down. They have never come to try to talk to her
7 at her house.

8 In no way am I trying to prevent Shanna from seeing either of our children this court
9 needs to understand the laws of human nature the need to have a relationship with a
10 mother and father now Justin is ready to move into that setting where he can build
11 this relationship with both entity s in a safe environment let him have this
12 relationship to grow and learn from as families do. The mind set of keeping the family
13 apart is what got this case to where it is today to continue this destructive path
14 will only perpetuate the very concern (the only concern) this court has Justin's
15 emotional state. His emotional state is caused by the time he has been kept away from
16 his family. I would like to recommend to the court to allow for Justin to be allowed
17 to come home permanently. In order for Justin to heal adjust and progress at a natural
18 state threw the positive reinforcement, unconditional love, and constancy that he has
19 found here in our home. He has expressed to me and family therapist Rachel Hardies his
20 desire to spend more time with me, his mom, and his family. Allow Justin to come home
21 and continue building his relationship and feel the security of establishing his place
22 in the family. Culturally speaking according to the ICW act we all know what needs to
23 be done. let this family heal.

24 Sincerely Eric Brewer/McCloud

25 I declare under penalty of perjury under the laws of the Quileute Tribal Law and Order
26 Code and the state of Washington that the foregoing is true and correct.
